

Siem Reap, Cambodia, August 30, 2025.

Dear Benefactors and Friends.

We would like to share with you two recently developed activities that reflect the wishes of a group of children, in response to the question...

WHAT IS PEACE?

Something very special recently happened in the Restaurant and Performance Hall **THE LABYRINTH**. A wonderful experience of great symbolic value. **CHILDREN FOR PEACE**.

All the children and all the NGO team were invited to tour **THE LABYRINTH** facilities by its general manager, Mr. **RAIKU**, where we enjoyed with a delicious dinner and various entertainment options were provided. I will mention them in detail in another newsletter, but in this one, I want to focus on two of the activities whose main theme was **PEACE**.

CHILDREN + KITES built by Themselves.

CHILDREN + LANTERNS with their Wishes.

The goal = **PEACE** for **CAMBODIA** and for the **WORLD**.

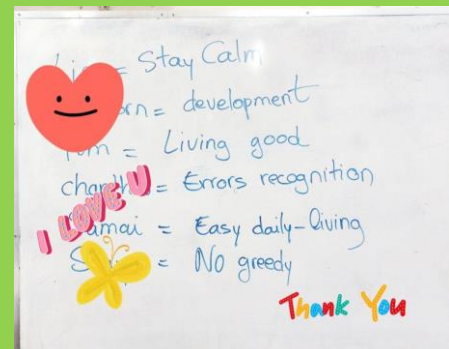

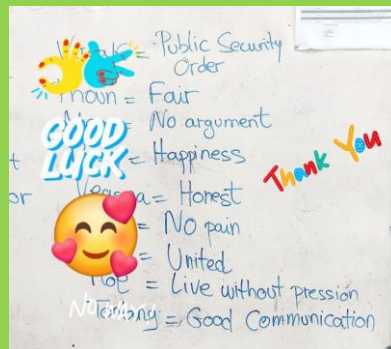

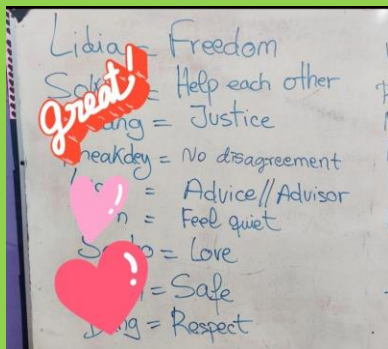

But it all began days before. They had to prepare, and this is how it happened:

1*- For two sessions, they debated and considered what peace means to each of them. How interesting it was to hear their voices, their arguments, how each of them feels about peace, what peace is?. Here I share some notes of their thoughts and comments, such as:

Being able to STUDY. RESPECT everyone. Turning away from GREED. Recognizing MISTAKES. Walking ALONE WITHOUT FEAR.

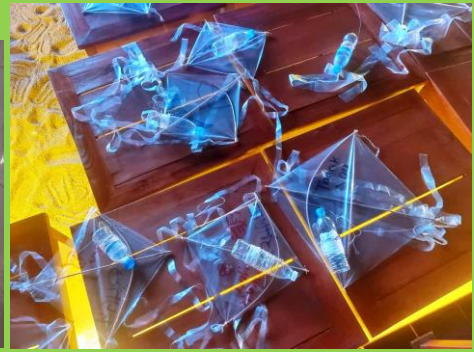

There were also those who chose to share a word that was a wish and symbolized PEACE for them, emerging with terms like JUSTICE, LOVE, SECURITY, DEVELOPMENT, UNITY, RESPECT, HAPPINESS. I could fill many more lines, but these examples clearly show their understanding and desires. Then, these concepts in THE LABYRINTH should be written on pieces of paper to hang from lanterns.

Debating the meaning of the word PEACE with children of all ages, because everyone has their own opinion, their own experience, their own voice, and most importantly, their own dreams.

2*- They spent a Sunday afternoon making kites with great enthusiasm. Carefully crafted kites, simple and very beautiful, so that they rose up and flew gently with their tails. Kites made of recycled plastic, bamboo, thread and an empty bottle to wind them—that's all!, but you have to know how to do it!. They wrote messages of PEACE and GRATITUDE, symbolizing in their flight their wishes sent to the world.

*** And finally, [THE LABYRINTH](#) Restaurant opened its doors wide and gave us a warm welcome!. There, we had a moment to reflect on what PEACE means to each of us. We were honored to have them for these events. Many thanks to [THE LABYRINTH](#) Team for making it possible in their facilities. It was a beautiful experience with great symbolic value!. ***

LANTERNS FOR PEACE.

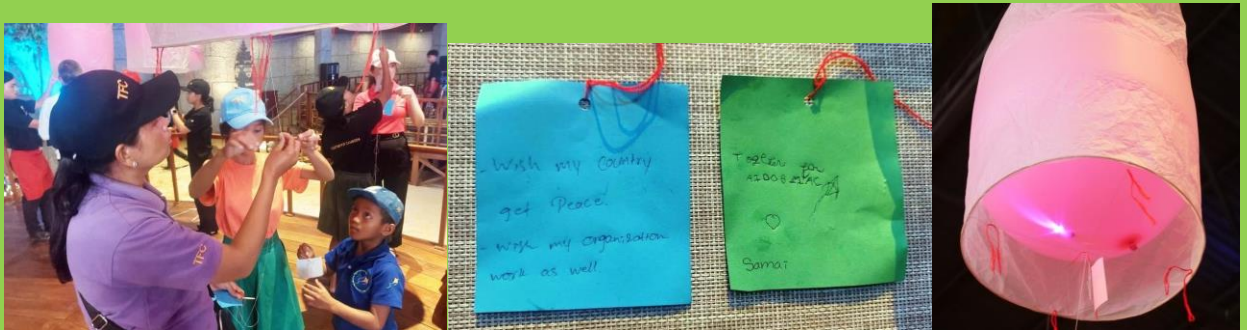

Each one with a message, with a wish, Cambodian children asking for PEACE for CAMBODIA, PEACE for the WORLD.

Writing their notes with wishes for PEACE.

Ready prepared with the paper cards to hang on the lanterns.

With the greatest enthusiasm, tying together desires and thinking about them with determination.

The countdown arrived ... 10, 9 ... 3, 2 ONE!

And to raise the lanterns with determination all TOGETHER with a single voice, PEACE.

DREAMING KITES

TOGETHER, sending a message of LOVE to the WORLD, to CAMBODIA from TOGETHER FOR CAMBODIA, where they want to grow up peacefully, happily and with respect.

Preparing the kites.

Enjoying watching them fly.

In September,

we will assess the situation of children displaced from their homes for safety.

The luckiest were relocated with relatives,

but thousands were sent to emergency camps.
